Build Documents Request AM115 744 1969 Maserati Ghibli

FABIO COLLINA <fabio.collina@maserati.com>
 To: Carl Bauer <carl.bauer@broadarrowgroup.com>

Mon, Jul 4, 2022 at 12:56 AM

Dear Mr. Bauer,

thanks for your kind email, you are welcome!

Please find below basic information about the car, I hope it could be useful.

Basic information: GHIBLI Coupè (AM115)	
Chassis number	AM115*0744*
Model	GHIBLI Coupé (AM115)
Body	GHIA (Giugiaro design) - Closed
Displacement	4.719 cm3 - Carburettors
Gearbox type	Manual type ZF S 5/325
External colour	"Verde Acqua" (Metallic Green)
Interiors leather colour	"Senape" (Tan)

Date of production	27/11/1968
Right hand drive	No
Delivery area	Munich - Germany

Regarding the Historical Documentation Service, I would like to inform you that in order to start the procedure we kindly need to receive from you pictures of the car (exterior/interior), pictures of the identification labels and (important) the picture of the chassis number stamped on the frame and of the engine number and engine internal number stamped on the engine block. Please refer to the attachments to easily find the requested numbers.

Once received ALL the requested pictures, I'll be able to check in our Historical Archive about the availability of historical documents for your car (please confirm the ownership of the vehicle, thanks).

After the research I'll advise you about the documents available for your car, their contents and prices. The research is totally free of charge.

IMPORTANT NOTE: please kindly be advised that in few days I'll be on vacation until next 27th July. Please be so kind to send me the requested pictures **after that date**, many thanks for your kind understanding!

My best regards and happy motoring

Fabio Collina

and cracked.
Remove all four carburetors, disassemble and overhaul carburetors.
Replace all fuel hoses in engine compartment.
Remove power steering pump and rebuild (leaking fluid).
Replace all v belts.
Remove a/c condenser and sublet or be cleaned and tested.
Remove oil tank and clean sludge out of tank. Refinish oil tank.
Remove and replace oil tank return hose, remove return hose flange from engine and replace o ring (leaking engine oil).
Replace oil filter and top up engine with new oil.
Replace battery ground cable. Fabricate and install battery securing bracket (bracket was missing & battery was loose).
Evacuate and recharge A/C system.
Check all lights, wipers, washer, fan etc. Repair head lamps (not working).
Diagnose and repair windshield washer. Remove and replace faulty washer pump. Install correct style washer pump switch to dash (no charge for switch as it was a used unit).
Run engine and synchronize carburetor idles and throttles. Adjust carburetor mixtures.
Remove fixed clutch master cylinder rod and install adjustable type to level clutch pedal with brake pedal. (As it was the clutch pedal was approximately 1" lower than the brake pedal).
Secure loose windshield molding (was coming out of the rubber by the windshield wipers).
Secure and glue door window run channels to passenger
